

DECORATIVE PLEXI MONO System

MERKUR MKS-250

Modern Design Plexi RF Mono System for High-end Apparel and Specialty Store

The MERKUR system addresses the aesthetic requirements of high-end retailers. MERKUR's advanced electronics enables superior detection depending on the type of labels or hard tags used.

This system is fully compatible with all 8.2 MHz reusable hard tags and disposable security labels.

For retailers to whom system aesthetics as well as performance are important, the high-tech MERKUR is definitely the system of choice.

This Mono antenna system can be used quite flexible through easy installation and power line synchronisation.

MERKUR MKS-250

Mechanical Specifications

Antenna Height	1470 mm
Antenna Width	350 mm
Antenna Base	358 mm
Material	Stainless Steel with Plexiglas panels
Centre Panel	None

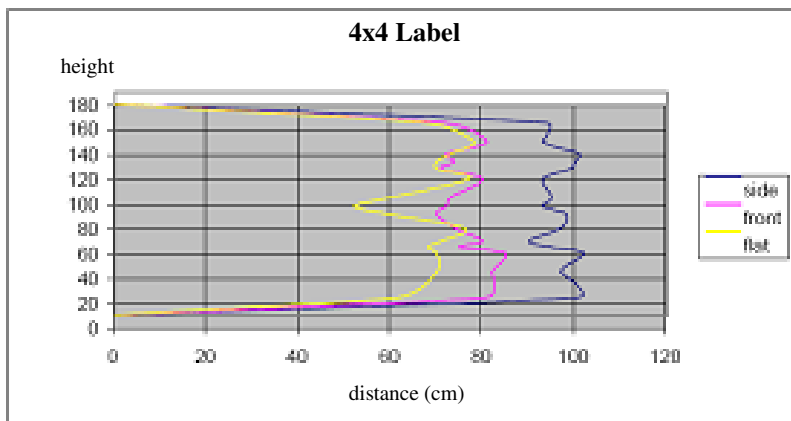

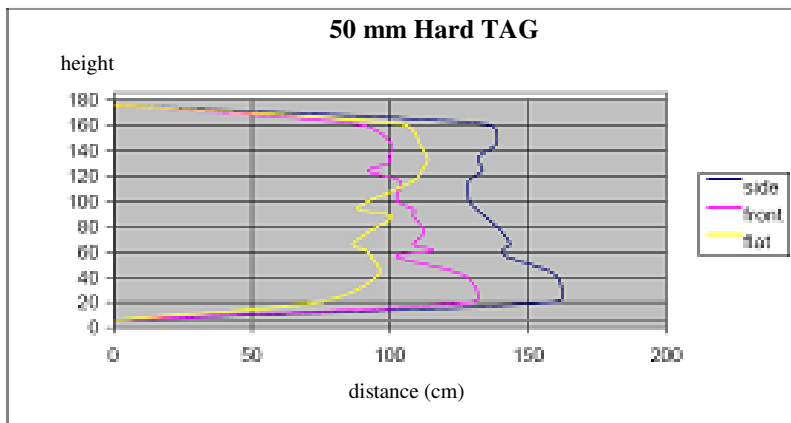

Antenna

Electrical Specifications

Operating Frequency	8.2 MHz ($\pm 10\%$)
Operating Distance	approx. 90 cm with 50x50 Hardtag, approx. 60 cm with 40x40 Label
Transmitter	Puls Listen System
Synchronisation	Power Line
Receiver Technology	Puls Listen System, together with transmitter
Alarm Light	Light Emitting Diode (LED)

Antenna and Electronics
